## INSTRUCTIONS

1. Starting with #17 and your medium round brush, make big lazy circles randomly around the pottery. These are done with one thick of paint so the brush strokes show through. Make them different sizes.
2. Wash your medium round brush, and use #18 to make similar circles in other areas. Let the colors overlap a little bit.
3. With a clean brush and #59, make a few more circles of different sizes around the piece.
4. If there are any empty areas, repeat the first 3 steps to add more circles. Don't be afraid to use thick paint and overlap your circles!
5. Using the handle end of your detail brush, use #45 to make smaller polka dots randomly around the other larger circles.
6. Let your circles dry.
7. With your detail brush, add a touch of water to your #31 paint. Pick a circle, and starting in the center, paint a tiny squiggly "C" shape. Keep spiraling squiggly "C" shapes around each other until you are happy with the size of the flower.
8. Not every circle will become a flower, and it's OK if the flowers are painted over white space. Have fun painting them in!
9. The lettering is easiest to do with a detail brush and watered down #31 black. Use a pencil to lightly sketch out the words, then paint over your lines.
10. Paint the inside of the mug #18.

-All done!
